The operators at their meeting decided that before they would frame a reply to the miners they would first consult all interests in order to get the sentiment of the heads of all coal carrying roads, as well as that of the independent operators, and Monday was set as the day when their answer would be given.

It was stated at the miners' headquarters that if the operators agree to arbitrate a call will be sent out at once for a convention of miners at pupils and a host of friends to whom railroad, he attempted to jump on a trouble for the family of Miss Nevawhich instructions would be adopted, his appointment is very gratifying. if they ratify the arbitration plan for the miners to return to work im-

#### Regarded in Varying Light.

Philadelphia, April 6 .- In the anthracite region, the arbitration proposition, made by the miners during the conference at New York is regarded in varying lights by the different interests involved. Those of the operators in the region who could be induced to venture an opinion expressed the belief it will not be accepted. Various reasons for its rejection are advanced among them.

An official of the Mine Workers' union at Scranton said:

"Operators have been flooding the papers and magazines with facts and figures to prove what an excellent institution is the board of conciliation. Now, Mitchell has put it up As a result of a conference of the to them to accept his proposition or leaders of the coalition party held admit they did not mean all the nice here under the presidency of Fran things they said about the board of cis Kossuth, a complete understandconciliation. SOME OF THE LEGAL POINTS.

The aldermen last night refused to sustain the mayor's veto of the police ordinance, and it is now the law. The police commissioners will meet Monday night and will probably reduce the force to twenty men. as provided for under the law, and increase the number to thirty, as provided for under the bill passed by the legislature June 1st, when the bill becomes effective.

The question is a very complicated one, and no one seems to know what to do or what will be done. The members of the council contend that they have made their appropriation for the year and will not increase it. O Steubenville, O., April 6 .- O have their salaries reduced so as to

The members of the force, as can be easily appreciated, are wondering "where they are at," and who is to be let out, if any one is let out.

To Arrest Cows. The mayor today said he would recommend to the council that it authorize him to employ a special policeman, to be mounted, to arrest the cows and stock, when steps are be in a few days now. He says it will be too much for the police, and that this would be the best way, for awhile, to enforce the law rigidly. He had some callers today from resdents who live in the county just outside the city who want to know what he would do about their stock in the event it should come into the city limits. "Arrest and impound it promptly. "Your stock when it comes into the city, is amenable to our laws, and we shall certainly so deem them.

Washington, April 6 .- Secretary Bonaparte has received from an octogenarian in Oneonto, N. Y., an anxious query as to whether John Paul Jones was pickled in alcohol, and, if so, did he keep well. The letter has been answered to the effect that Jones kept well considering the lapse of years, but that the department cannot go into a discussion on the relative merits of cremation and pickling in alcohol, the question which the writer is really worried bout. The letter reads as follows:

"Please tell me, was Paul Jones found in a lead casket filled with alcohol and was his body in a good state of preservation?

"I am 80 years old and favor cremation, but my children prefer the lead casket and alcohol."

### DECLARES SHE IS AN BX-PADUCAHAN

New York Prison.

The Charge and Her Story Are Giv-

New York, April 6 .- Mrs. Helen

M. Chase, a handsome Southern woman, claiming Paducah as her birthplace and saying she is the former wife of a count, is a prisoner in the Ludlow street jail. She charges her imprisonment is due to an old man's revenge. Her portrait has ben painted by famous artists, and one by Theobold Chartran was exhibited recently under the title, "A portrait of a lady." Mrs. Chase, with blue eyes flashing, says the aged George H. Woodman, who caused her arrest, wishes to humiliate her because she spurned his love. He alleges after he loaned her a large lot of jewelry she threw the jewelry in a trunk, locked it and sat on the lid, defying him to touch her. She has magnificent jewels. Mrs. Chase is the handsomest prisoner ever held in the civil jail here because of litigation. She is thirty years old, tall and golden haired. She formerly had a large country home on Long Island, but speculation last fall swept away most of her property. In an interview she said: "I was the wife of Count George Chairtier, my present husband, from whom I have not been divorced, and who lives in San Fransisco. I was born in Paducah, Ky., and my family is highly connected. I have traveled extensively and am known abroad and in New York, but never before have I been brought into such an humiliating situation."

The identity of Mrs. Shew locally could not be learned today by The Sun. Inquiries addressed to those Paducahans whom it was thought might know the woman, failed to develop whether or not she is an ex-Paducahan, though her claim in this regard may be correct.

### BILL FOR POWERS

CONGRESSMAN HUGHES, OF W.

One Provision Gives the Federal Court Undisputed Jurisdiction in the Trial.

Washington, April 6 .- Representative James A. Hughes, of West Virginia, introduced yesterday the bill which is intended to guarantee justice to Caleb Powers, and to all prisoners.

Immediately after introducing the bill Mr. Hughes made application to the judiciary committee for a hearing upon it at the earliest possible date. He said that he would like to speak before the committee in favor of it, and he also requested that John W. Langley be heard.

Ollie James has asked to be heard in opposition to the bill.

Of course the board of works would like to appoint these officials, that is the desire of most public boards, but, it is a safeguard for the council to retain its control over such officials. Because they work under the direction of the board of works is not a good reason why that board should appoint them. #### THE SILVER SERVICE.

The finance committee of the council, to whom the matter has been referred, should take up the proposition of purchasing a suitable silver service to present to the gunboat Paducah at once, and also ascertain if the boat can not be dispatched 'to Paducah this spring, when the waters in the rivers are high.

The fund being raised by private subscriptions amounts to \$500, and the city will give \$500, so the committee should take the matter up at once with the Commercial club, and delegate a committee to purchase the service, and attend to the details of getting permission for the boat to come to Paducah, and also make the arrangements of a program for the presentation.

Is Released On Bond. Owensboro, Ky., April 6 .- E. W Neel, former cashier of the Stanley Deposit bank, at Stanley, Ky., who was arrested here on the charges of embezzling the funds of the bank, gave bond this morning and was released from custody. Neel had never been placed in jall, but was kept in the custody of a deputy sheriff, and was allowed to go and come largely as he pleased with the officer in attendance. Twelve citizens from Morgantown, his old home, went on his bond. Neel's attorney makes the claim that Neel was not the only one involved in the speculations which caused his arrest and that when the case comes to trial some sensational revelations will come out.

### ANNOUNCEMENT

IN E take great pleasure in announcing that we have secured the services of Mr. James K. Hughes, of Nashville, who for the past seven years has been manager, buyer and head salesman of the Talbott Clothing Company, of Nashville, the most exclusive clothing establishment in that city, and one that occupies a position in the very front rank of such establishments in the south; and of Mr. E. F. Rasmussen, of Oshkosh, Wisconsin, who has been connected for the past ten years with the establishments of Sam Stern & Co., of Chicago and La Crosse and L. Strubing Co., of Oshkosh, Wis.

These gentlemen come to us with the very best of records and we feel in bringing them to Paducah we are merely following the fixed policy of our establishment—that of always securing the best possible services for our patrons.

Mr. Hughes and Mr. Rasmussen will be pleased to greet the Paducah public at our opening Monday.

Mr. James K. Hughes

### 25 PER CENT OFF ON **ALL SPRING SUITS**

For the benefit of early buyers and in order to do away with the usual Easter rush, we will, for the next five days only, offer every Coat Suit in our entire beautiful stock at a reduction of 25 per cent from regular prices. Our line this season is the finest and most extensive ever shown and embraces the daintiest colorings and most excluive fabrics. Our suits are the products of manufacturers who sell no other merchant in Paducah. They are simply perfect in style and workmanship. Think of it! Oge-quarter off light in the heart of the season !

### GUTHRIE'S

T is not possible to describe the vast range of rich and exclusive garments which we have arranged for you to look at with an "Easter" eye. For weeks now the new things have been arriving from the eastern makers and we at last feel that here is something worthy of our high ideals and your critical notice. The fact that we have the exclusive sale in Paducah of the following well known brands clinches our claim that we carry always the "best of the best." First of all our own Canterberry System, Heidelberg=Wolff & Co., Kuppenheimer, College Brand, I. Hamburger & Sons and Henry J. Brock & Co.'s Union Made Clothing. Don't fail to order that new Easter Suit early—the rush will soon be on.

We have just received a line of handsome China Silk Pajamas, embodying new and clever ideas in colorings. They are worth looking at, and the most comfortable things in the world. Fine line of night shirts, too-50c to \$10.00.

IN assembling this magnificent and high class furnishings for men and boys we were not unmindful of the fact that our customers were entitled to not only the best but also if it was possible, the lowest prices, and we have put the lowest prices that is possible for legitimate merchandising. Visit our different departments, examine the quality of goods and you will fully realize the truthfulness of the above statement. Not the cheapest, but the best and at the lowest possible price that we can make. Our doors are open and invite you to inspect our goods and pass judgment on them.

# A BOYS' STORE WITHOUT AN EQUAL

We make this statement unhesitatingly without fear of contradiction--it is the truth. Off to itself, separate and distinct from the department devoted to the appareling for men; occupying the entire second floor; equipped with every modern convenience; magnificent stocks, correct styles, perfect store service and greater values -- a boys' store in a class by itself, without a serious rival in the city of Paducah. This will interest the boys: With each child's suit we will give an assortment of thirty-six handsomely lithographed post cards.

### SHIRTS

We undoubtedly have the most superb line of white and colored shirts we have ever handled. The colored shirts are beauties, and many of the patterns are confined to us. We have the ever popular Manhattan and Emery shirts cuffs attached or detached, plaited or plain bosom.

The shoe men are keeping p with the possession this spring, too, for there is a wealth of new styles to select from, both in shapes and leathers. The Nettleton and Stacy Adams, which we handle, are standard, and we don't need to say much about the quality of them, but we do want to call your attention to the dash and swing which is so evident in the new styles. There is an ap pearance of elegance about these shoes which appeals to you at once and a "feel" to them which demonstrates that elegance, after all, has been the first requisite in the designer's scheme. They come in all leathers-Patent Vici, Gun Metal and Patent Colt-either button or lace.

Our \$3.50 line is a strong one. We like to show our goods to a man who is a judge of shoe leather. This season we are showing the new "Dart" and "Comet" toes, which come in Gun Metal and Patent Colt. The price is \$3.50-neither too much or too little.

In a few days after he took the stump they were still laughing, but not at "Sherbie." He attacked graft and boodle with vibrolic tongue and arguments that were unasstilable.

His first act was to upset the county printing monopoly and uncover about \$35,000 a year in bills that were too high. The people applaudble fight over the lighting contract.

Al Becker's rich friends were lined as against the municipal plan, but 'Sherbie" had an inspiration. He sent out postal cards to every voter stood for the municipal plant and 'Sherbie' obeyed the dictum and voted against his rich friends.

In his campaign against Rose he introduced many novelties. He plastered the walls with huge posters of himself and his policies-"A Greater Milwaukee," "Unceasing War on Graft and Boodle." He issued a daily paper, called "Becker's Bulletin," in which he replied to the attacks upon him by the organs affiliated with the Rose party.

### It Shows the Work Done By Comp the Past Year---Plans for t

Mr. President and Gentlemen of the Commercial Club:-

In submitting to you a review of the work of our association for the past year, it is difficult to do so in a full and comprehensive manner so that it will give a true idea of the net results of the year's work, for the reason that preliminary work has been done, and seed sown, that will develop and mature in the future in ways that it is difficult to grasp at the moment, that will be of lasting benefit to the city of Paducah.

#### **Advertising Paducah**

Among other things many pieces of advertising matter have been sent out through the mails, advertising the advantages of Paducah as a manufacturing point, as a home place, and a city in which to do business and enjoy life, that will bring results for a long time to come, and which can hardly be appreciated by those who have NOT carefully noted the large number of responses received from this advertising.

In the past we have enlisted in a small way, the assistance of a number of our business houses in sending out printed slips in their mail matter advertising Paducah. Some fifty thousand pieces of printed matter was distributed in this way during the months of June and July last year. Including this and what we have sent out under our own postage, over two hundred and forty thousand piece has been distributed in the last twelve months by the Commercial Club.

It is our intention to prepare a lot of suitable matter for our business people, in the way of mailing slips, to enclose in their cor-respondence, and we are hopeful we will be able to distribute over one million pieces to all parts of the country this year, advertising Paducah, and we ask the business people to co-operate with us to this end.

In the way of advertising much good has been done by your representatives at the various conventions that have been held the past year, where Paducah has been repre-

#### Conventions

At the Fourth State Development Convention held in Louisville, an effort was made to bring the next Convention to Paducah, but We had the satisfaction, however, of getting our town's advantages and necessities placed prominently before the Convention and some of the financial interests of the country, and your delegates tried to impress the seven hundred and twenty delegates to this convention, and the representatives of capital, with importance of Western Kentucky AND ESPECIALLY PADUCAH.

At the Convention held in Chattanooga to consider Immigration and Quarantine matters, efforts were successfully made to get Paducah prominently before the convention, and it is safe to say that some of the men of affairs throughout the South, including Governors, Senators and Congressmen, went away with a better knowledge of Paducah than they had ever had before.

At the Convention of the Ohio Valley Improvement Association held in Cairo, Paducah was well represented, but through an oversight little or no advertising was done.

The Paducah Commercial Club was represented at the National Rivers and Harbors Congress, held in Washington, January 15th, 16th and 17th, by your secretary, and some valuable advertising was done at this convention and our city was recognized by your representatives being placed upon the Credentials Committee.

Recently at the first Annual State Farmers' Institute meeting of Kentucky, held at Frankfort, Ky., Mr. W. L. Bower and your secretary had the honor of representing Paducah and McCracken County. Realizing the vast importance and benefit such a gathering of representative farmers would be to our McCracken County farmers, we worked hard and earnestly to secure the next Annual

State Institute for Paducah. This would mean that our State Commissioner, Hon. Herbert Vreeland, would bring to our city the ablest representatives of the agricultural interests in the United States. Men whose business it is, and who are paid by the gov ernment and the various states to work out the farming problems, along scientific lines, and to develop in practical ways the most correct and profitable methods to enable the farmers to get the best results from their farms and labor.

In no other way can the farmers of Mc-Cracken County possibly receive so much in-formation and assistance as would be brought to them by bringing this State Institute to

The recent organization of the McCracken County Farmers' Institute was the outcome of the attendance of your representatives at the first State Institute, and we believe, that with the co-operation of our County Institute with the Commercial Club, we will yet be able to bring the State Institute for 1907 to Pagueah. It is fair to say that not one dele-gate that attended this recent State Farmers' Institute left Frankfort withou having been impressed with the importance of Faducah and McCracken County, and the fact that we are a wide awake, ambitious, hustling and progressive people.

Now, Mr. President and gentlemen, the point in regard to these conventions is their importance to Paducah in an advertising way. They also afford opportunities for making acquaintances and forming friendships and acquiring ideas and information that are of very great importance and value to this Organization, and when I say that I mean the entire city of Paducah and McCracken County, for we ought to stand in this work as one man working through this Commercial Or-ganization, every individual being interested in doing all he can to accomplish the best possible results in promoting the progress of this, our home city.

The great regret that I have had so far as these conventions are concerned, was that where Paducah was represented by one or two delegates, other towns of a great deal less importance, have been represented by twelve or fiften of their representative citizens which puts Paducah at a disadvantage, and I sincerely trust that at all future opportuni-ties, larger delegations will be sent to represent our city to all important conventions that may be held, and in this connection, I believe that to bring as many of these conventions as possible to Paducah will be well

#### Factory Locations

We have had during the last Commercial Club year a large number of visitors from other parts of the country, who have come upon our invitation to look the fleid over with a view of establishing some sort of enterprise here. We have had since the first of January, 1906, twenty-nine such visitors registered at our headquarters, and it is reasonable to assume that the number of visitors coming to Paincab seeking business. visitors coming to Paducah seeking business opportunities and locations will increase rather than diminish, especially if we keep

rather than diminish, especially if we keep up our work in a proper manner.

Since last April we have established in Paducah the Hardy Buggy Company, who manufacture as high grade buggies as can be secured from any factory in the country. This establishment is presided over by men thoroughly competent and able and who doubtless will make, a great success of this enterprise. The Hardy Buggy Company are now employing forty-eight hands and add two each week. They deserve the support and each week. They deserve the support and encouragement of all our citizens.

There has also been established the Paducah Box and Basket Company. This concern is now employing over one hundred hands

and are steadily increasing. The management is able and experienced and this is a substantial acquisition to the manufacturing interests of Paducah.

Another factory that is almost ready for business is the Southern Lumber and Box Company. This institution will supply a long felt want for our local business interests in the manufacture of boxes and packing cases, and will employ iwenty-five hands to start

with, which will doubtless increase steadily under the able management which is assured. Another enterprise that will soon be under way and which we hope and believe will be as large as any enterprise in the city of Paducah, is the Old Kentucky Cereal Mills. This enterprise has been encouraged by our citizens by a twenty-five thousand dollars hond subscription, and great things are hoped and expected from its management. We also have had established in our midst

the Aycock Hosiery Mills, an institution of importance to our manufacturing interests. This concern is now employing thirty-six hands and expect to double their capacity in the very near future. The management is experienced, and Paducah is fortunate in having this factory among the many others. We are also able to state that a Soap Fac-

tory is being established in Paducah, that will manufacture Toilet Soaps of the highest quality. It will not only enable our home people to keep clean, but their capacity will be such that they will be able to supply the soap necessities of all this territory.

Mr. President and gentlemen I have called attention to these six factories and concerns that are in operation and assured for Paducah as a result of this past year's work, which means the employment of about 300 hands.

Negotiations are under way with a wagon maker from Memphis, to open up and operate the Paducah Wagon Works that have been idle for some time. I feel sure that the arrangement will be consummated and that this concern will afford employment to quite a few mechanics.

#### Prospective Factories

Today we had the pleasure of having the representatives of the Brown Shoe Company, of St. Louis, here with us, seeking a location for a branch shoe factory. We are hopeful that our negotiations with these gentlemen will prove successful, and in a few days be able to announce that arrangements have been definitely concluded by which they will come to Paducah and establish their factory. This would mean the employment of between four and five hundred hands and a pay roll of from four to five thousand dollars per week.

week.

I have every reason to believe, Mr. President and gentlemen, that in a very short time we will have established in Paducah an up-to-date Flouring Mill, with the capacity of one hundred barrels per day. This matter has been quietly investigated, by very responsible parties, and I am assured that it will be a matter of only a short time until this enterprise is put under way in Padutah.

#### Chautauqua

Under the auspices of the Commercial Club, Mr. Jas. A. Shaw, Editor of the Chautauqua Review, of Bloomington, Ill., has worked up a sentiment for holding a Chautauqua meeting in Paducah. And arrangements have been made to this end, and we are now assured that our first Chautauqua meeting will take place the latter part of June. It is hoped and believed that this meeting will be of great interest and benefit to all our citizens

great interest and benefit to all our citizens and those of the surrounding country.

In addition to the factories I have mentioned that are already established, we have seen one of the largest factories in the city, the Mergenthaler, Horton Basket Company, double their capacity so that now they are employing two hundred hands, with a weekly pay roll of sixteen hundred dollars, and they are now putting in machines to employ one are now putting in machines to employ one hundred more hands.

### SOME ODD BASE-BALL ACCIDENTS

(By Hugh S. Fullerton.)

One of the remarkable things about baseball is the scarcity of accidents to players. In the two majo leagues alone there are 300 players playing 170 days a year at least, often five or six hours a day, counting it is heralded all over the country.

There are perhaps 1,000,000 people in the United States who play ball of some form every day from April to the middle of October- that is, one person in every eighty handles a ball during the day-and ac the least estimate there are 4,000 games of ball played every day in summer, and the serious accidents do not average 25 to the season. The number of deaths reported (or that I have seen reported) in the last ten years are 14, a little over one to

bruises from batted balls and pitched malls, hard raps in the head, are numerous enough, but the wonder is that there are not more serious injuries. Blood poisoning from leg wounds, in cases where the colored stockingsc are driven into the legs of the players, is the most dreaded form of accident-not even barring collisions between players.

#### How Jimmy Connor Was Ruined for Fast Company.

#### Grounds.

Perhaps the oddest accident that ever happened on the ball field was on the Baltimore grounds. The outfield fence there was built slanting that is, there was an upright fence and inside that was a platform slanting from the ground to the top of the fence at an angle of about 60 for signs.

Willie Keeler, playing in the short one day, in a game against St. Louis, he miscalculated. He was found on the track, with all the wind knocked out of him, where he had fallen when he ran over the edge of the high bank in pursuit of Holliday's hit.

The baron's manner was ideal; undiminished in volume, faultless as to decorative qualities. One fitted to savor its exquisite finish would scarce have noted that above his waist the noble gentleman was clad in a single woolen undergarment of revolutionary red.

Or, if such a one had observed this trifling circumstance, he would, assuredly, have treated it as of no value to the moment; something to note, perhaps, and then gracefully to forget.

On the farther side of his closed door Baron Ronault de Palliac sworeonce. But the oath was one of the most awful that a Frenchman may utter in his native tongue: "Sacred Name of a Name!"

"But the baron wasn't done eating," protested Mrs. Bines.

"Ah, yes, madame!" replied Philippe. "Monsieur le Baron has consumed enough for now. Paul, mon enfant, ne touche pas la robe de madame! He is large, is he not, madame, as I have told you? A monster, yes?"

Mrs. Bines, stooping, took the limp and wide-eved Paul in her arms. Whereupon he began to talk so fast to her in French that she set him quickly down again, with the slightly helpless air of one who had picked up an innocent-looking clock only to have the clanging alarm go suddenly off. "Madame will honor our little sa-

At dinner that evening Mrs. Bines related her adventure, to the unfeigned delight of her graceless son, and to the somewhat troubled amazement of her daughter.

"Aid, do you know," she ventured, maybe he isn't a regular baron, after

"Oh, I guess he's a regular one all right," said Percival; "only perhaps he hasn't worked at it much lately." But his sitting there eating in that -that shirt-" said his sister.

"My dear young woman, even the nobility are prey to climatic rigors; they are obliged, like the wretched low-born such as ourselves, to wearpardon me-undergarments. Again, I understand from Mrs. Cadwallader here that the article in question was satisfactory and fit-red, I believe you say, Mrs. Terwilliger?"

"Awful red!" replied his mother-"and they call their parlor a saloon." "And of necessity, even the noble have their moments of deshabille." "They needn't eat their lunch that way," declared his sister.

"Is deshabille French for underclothes?" asked Mrs. Bines, struck by

CHAPTER XIV.

THE SUMMER CAMPAIGN IS PLANNED. Winter waned and spring charmed the land into blossom. The city-pent, as we have intimated, must take this season largely on faith. If one can find a patch of ground naked of stone or asphalt one may feel the heart of the earth beat. But even now the shop windows are more inspiring. At least they copy the outer show. Tender-hued shirt-waists first push up their sprouts of arms through the winter furs and woolens, quite as the first violets out in the woodland thrust themselves up through the brown carpet of leaves. Then every window becomes a summery glade of lawn, tulle and chiffon, more lavish of tints, shades and combinations, indeed, than ever nature-dared to be.

Outside, where the unspoiled earth begins, the blossoms are clouding the trees with a mist of pink and white, and the city dweller knows it from the bloom and foliage of these same win-

### The Pain Family

You know them; they are numerous, and make their presence felt everywhere. The names of the family are Headache, Toothache, Earache, Backache, Stomach ache, Neuralgia, etc. They are sentinels that warn you of any derangement of your system. When the brain nerves become exhausted or irritated, Headache makes you miserable; if the stomach nerves are weak, indigestion results, and you double up with pain, and if the more prominent nerves are affected, Neuralgia simply makes life unendurable. The way to stop pain is to soothe and strengthen the nerves. Dr. Miles' Anti-Pain Pills do this. The whole Pain family yield to their influence. Harmless if taken as directed.

"I find Dr. Miles' Anti-Pain Pfils an excellent remedy for overcoming headache, neuralgia and distressing pains of all sorts. I have used them for the past seven years in this capacity with the best of results."

. SAFE AND RELIABLE. That the roots of many native plants, growing wild in our American forests, possess remarkable properties for the cure of human maladies is well proven. Even the untutored Indian had learned the curative value of some of these and taught the early-settlers their uses. The Indian never liked work so he wanted his squaw to get well as soon as possible that she might do the work and let him hunt. Therefore, he dug "papoose root "for her, for that was their great remedy for female weaknesses. Dr. Pierce uses the same root—called Blue Cobosh—in his "Favorite Prescription," skillfully combined with other agents that make it more effective than any other medicine in curing all the various weaknesses and bined with other agents that make it more effective than any other medicine in curing all the various weaknesses and painful derangements peculiar to women. Many afflicted women have been saved from the operating table and the surgeon's knife by the timely use of Doctor Pierce's Favorite Prescription. Tenderness over the lower pelvic region, with backache, spells of dizziness, faintness, bearing down pains or distress should not go unheeded. A course of "Favorite Prescription" will work marvelous benefit in all such cases, and generally effect a permanent cure if persisted in for a reasonable length of time. The "Favorite Prescription" is a harmless agent, being wholly prepared from native medicinal roots, without a drop of alcohol in its make up, whereas all other medicines, put up for sale through druggists for woman's peculiar ailments, contain large quantities of spirituous liquors, which are very harmful, especially to delicate women. "Favorite Prescription" contains neither alcohol nor harmful habitforming drugs. All its ingredients are printed on each bottle wrapper. It is a powerful invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. For weak and sickly women, who are "worn-out," organs distinctly feminine. For weak and sickly women, who are "worn-out," or debilitated, especially for women who work in store, office, or school-room, who

work in store, office, or school-foom, who sit at the typewriter or sewing machine, or bear heavy household burdens, and for nursing mothers, Dr. Pierce's Favorite Prescription will prove a priceless benefit because of its health - restoring and strength-giving power. For constipation, the true, scientific cure is Dr. Pierce's Pleasant Pellets. Mild, harmiess, yet sure.
